Career Objective

Software developer with a strong foundation in Java and C++, backed by 100+ solved DSA problems (LeetCode, GfG) and hands-on Spring Boot and MERN full-stack experience across two internships and three projects. Looking to bring that mix of problem-solving and end-to-end build experience to a team working on real, high-performance systems.

Education

BTech – Computer Science and Business Systems

Francis Xavier Engineering College | 2023 – 2027

CGPA: 7.81

High School

Time Matric Higher Secondary School | 2021 - 2023

Percentage: 83.2%

Technical Skills

Programming Languages: Java, C, C++, Python

Databases : MySQL, MongoDB

Tools Technology : Git, GitHub, VS Code, Postman, MySQL Workbench

Web Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Concepts: Object-Oriented Programming, Database Integration

Projects

Food Ordering Progressive Web Application

- Built a production-ready full-stack food ordering PWA with AI-based recommendations, Firebase push notifications, JWT authentication, GPay payment integration, and a real-time admin panel.

Mydeen AI — Full-Stack AI Assistant

- Built a full-stack AI assistant (React, FastAPI, Supabase, Groq LLM APIs) with real-time chat, auth, and chat history.
- Integrated web search, PDF analysis, and OCR-based text extraction on a scalable backend.

Seasonal Deceptive Website Detection System

- Built an event-driven cybersecurity solution to detect fraudulent event-based websites using URL analysis, SSL validation, domain-age checks, and redirection detection.
- Deployed an explainable risk-scoring system with a Streamlit interface.

Internships

Software Developer Intern — Skill Software Inc, USA

- Migrated legacy Selenium test automation suites to Playwright (Python), improving test execution speed and reliability across internal project pipelines.
- Implemented AWS cloud infrastructure for internal applications, managing deployment workflows and cloud resource configuration.

Full Stack Developer Intern — Asta Systech Pvt. Ltd, India

- Built a full-stack CRUD app end to end using Java, Spring Boot, React.js, and SQL.
- Designed and integrated RESTful APIs with a relational database across the development lifecycle.

Certifications

- **Internet of Things** — IIT Kharagpur (NPTEL), 80%
- **Java Essentials & Git Essential Training** — LinkedIn Learning
- **Web Development and C Programming** — Udemy

Soft Skills

- Problem Solving
- Team Collaboration
- Adaptable Learner
- Time Management
